

Happy New Year! Hope your holidays were merry and bright.

Just because the holiday festivities are over doesn't mean the excitement cannot continue.

Why not come and visit our newly reorganized research Library and reading room based on the Polish experience. We have many wonderful books both in the Polish language and in English just waiting for you to browse and read.

Give yourself a special "after the holidays gift" by visiting our Library to enrich your mind and discover this tranquil room of discovery and wonder.

For a list of already catalogued books visit www.pwaa.org and click on the Library button. This is a work in progress and will be updated further during 2007.
